

gale drove us into the regions of almost perpetual darkness. We were far south of Cape Horn, and the day was only six hours long. The weather was the coldest that I ever experienced. This place is justly termed the terror of sailors.

In about three weeks time we came into warmer weather. The winds had moderated, and we glided smoothly yet rapidly along. No stop was made at any port until we reached Norfolk, Va., where we landed on the eleventh of October.

As it regards the prediction of the surgeon of the Lexington, who said that I would not live to get home, I have only to say, that I was not only alive, but in better health than I had been for some time before. I now weighed one hundred and sixty pounds; when I came on board at San Blas, I weighed but one hundred and fifteen. I remained here a few days, and then went to Washington, where my dues were paid me. I then returned to my friends, who had long mourned me as dead.

ABBOTT'S HISTORIES,

PUBLISHED BY

Harper & Brothers, Cliff Street, New York.

* * * The Volumes of the Series are printed and bound uniformly, and are adorned with richly illuminated Title-pages, Maps, and numerous Engravings. 16mo, Muslin, 60 cents per Volume; Muslin, gilt edges, 75 cents per Volume. Each Volume sold separately.

Josephine.

This series of historical narratives is scarcely inferior in interest to Sir Walter Scott's "Tales of a Grandfather." Mr. Abbott has a remarkable power of seizing on the most available features of the character which he undertakes to delineate, and is never at a loss for forcible and felicitous expression.—*Courier and Enquirer.*

Madame Roland.

This book ranks fairly with its predecessors in that beautiful series which we have so often noticed and approved. The story of Madame Roland and the French Revolution, as far as necessary to make her memoirs intelligible, is told with that graceful ease and transparent perspicuity which mark all these books of Mr. Abbott.—*Richmond Watchman.*

Maria Antoinette.

Charming compendiums of history. We know of few books we are more ready to commend to the public than Mr. Abbott's. They fill a little place which has heretofore been empty.—*Two Worlds.*

Cleopatra.

Another of the crimson-garbed works of the historic series that have proved themselves so popular, not only with the young, but all classes of readers. * * * The details are given with clearness and simple beauty; the style suitable to the comprehension of the child, as being interesting to the adult.—*ALFRED B. STREET.*

Julius Cesar.

The author seems gifted with that peculiar faculty, possessed by so few, of holding communion with and drawing out ardent imagination and budding genius, and at the same time of directing both into the great channel of truth. The labors of such a man are productive of incalculable good, and deserve the highest reward.—*New Hampshire Patriot.*

Hannibal.

A new volume of the series projected by the skillful book-manufacturer, Mr. Abbott, who displays no little tact in engaging the attention of that marvelous body, "the reading public," in old scholastic topics hitherto almost exclusively the property of the learned. The latter, with their ingenious implements of lexicons and scholia, will be in no danger of being superseded, however, while the least-furnished reader may gain something from the attractively-printed and easily-perused volumes of Mr. Abbott. The story of Hannibal is well adapted for popular treatment, and loses nothing for this purpose in the present explanatory and pictorial version.—*Literary World*.

Alexander the Great.

The history of Alexander the Great, as penned by Jacob Abbott, will be read with thrilling interest. It is profusely embellished, containing maps of the Expedition of Alexander, of Macedon and Greece, the plain of Troy, the Granicus, and the plain of Issus; and engravings of Alexander and Bucephalus; Paris and Helen; the bathing in the River Cyndus; the siege of Tyre; Alexander at the siege of Susa; and the proposed improvement of Mount Athos. It is written in a most graphic and attractive style.—*Spectator*.

Full of entertainment and instruction.—*Independent*.

Darius the Great.

Mr. Abbott's design to write a succession of histories for the young is admirable, and worthy of all encouragement, and the manner in which he has executed the work thus far is most excellent. Let him be encouraged to proceed till he has reached the last volume of history, that the coming generation may turn from the world of romance to that of reality, and learn that what is and has been is as brilliant in character, as glorious in description, and as captivating in detail, as that which the genius of fiction ever created.—*New York Observer*.

Cyrus the Great.

The style is smooth, easy, and attractive, and the whole preparation of the work is such as will secure a large popularity for the series. The great condensation of facts, and the picturesqueness of the style will commend these books to the young. The illuminated title-pages are very beautiful.—*Southern Methodist Pulpit*.

Xerxes the Great.

They possess more than the interest of fiction, and yet are replete with solid information. The youth that becomes interested in these glowing pictures will find a growing taste for historical reading generally.—*Christian Parlor Magazine*.

Alfred the Great.

History, under the pen of Mr. Abbott, discloses its narratives and utters its lessons in a style of great simplicity and intelligence, and, above all, with no danger of detriment to morals. He has selected his field with excellent taste. In their line, these volumes have never been surpassed.—*Baptist Recorder*.

William the Conqueror.

These historical works by Mr. Abbott have so much merit for the interesting style in which they are written, and the beauty of their mechanical execution, that we place them at the head of the more unpretending histories. We know of no works extant calculated to produce a more salutary effect upon the young reader of history; certainly none where leading historical incidents are communicated in a more fascinating manner.—*Buffalo Courier*.

Mary Queen of Scots.

The history is here given minute in every point of real interest, and without the encumbrance of useless opinions. There is no sentence thrown away—no time lost in mere ornament. Perhaps no book extant, containing so few pages, can be said to convey so many genuine historical facts. There is here no attempt to glaze over recorded truth, or win the reader by sophistry to opinions merely those of the author. The pure, simple history of Queen Mary is placed before the reader, and each one is left to form an unbiased opinion from events impartially recorded there. One great and most valuable feature in this little work is a map of Scotland, with many engravings of the royal castles and wild scenes connected with Mary's history. There is also a beautiful portrait of the Queen, and a richly illuminated title-page such as only the Harpers can get up.—*National Magazine*.

Queen Elizabeth.

Full of instructive and heart-stirring incident, displayed by the hand of a master. We doubt whether old Queen Bess ever before had so much justice done to her within the same compass. Such a pen as Jacob Abbott wields, especially in this department of our literature, has no right to lie still.—*Albany Express*.
We have read each and all of them successively in the order of their issue with far more interest than it is possible for us to feel in any work of fiction; and there has been no series of books published in this country that we would honor or more confidently place in the hands of the youthful reader than "Abbott's Historical Series."—*Mirror*.

Charles the First.

We incline to think that there never was before so much said about this unfortunate monarch in so short a space; so much to the purpose; with so much impartiality; and in such a style as just suits those for whom it is designed—the "two millions" of young persons in the United States, who ought to be supplied with such works as these. The engravings represent the prominent persons and places of the history, and are well executed. The portrait of John Hampden is charming. The antique title-page is rich.—*Southern Christian Advocate*.

Charles the Second.

A valuable engraving of Lely's portrait of Cromwell opens the book, and there are several illustrative wood-engravings and an illuminated title-page. This is a comprehensive and simple narration of the main features of the period during which Charles the Second reigned, and it is done with the clear scope and finely-written style which would be expected from the pen of Jacob Abbott—one of the most able and useful literary men of his time.—*Home Journal*.

Abbott's Franconia Stories.

OPINIONS OF THE PRESS.

Pleasing pictures of still life in the country, which the young will gladly read, and gather much useful knowledge, while they find pleasure in the story.—*Presbyterian*.

The pleasing simplicity of style in which these volumes are written—the amusing anecdotes related—and the little sketches of scenery so naturally introduced, can not fail to secure for them the warm appreciation of that class of readers for which they are prepared.—*Toronto Globe*.

Delightful stories for children.—*Albany State Register*.

If any of our readers are troubled with noisy urchins, who disturb their evening's comfort, they may find an effective opiate in these attractive volumes. We hope the experiment may be fairly tested.—*Christ. Chronicle*.

The whole tendency of this series is in favor of a high tone of morals, and these graceful and simple lessons of life can not fail to be useful to those who read them.—*Watchman and Observer*.

No better or more acceptable present could be made from parent to child than a set of the "Franconia Stories."—*Buffalo Courier*.

The author is so well known to the juvenile world that he needs no introduction from us. His histories for children have long been the delight of our little circle, and it welcomes his new and beautiful story-books as it would the visit of an old friend.—*National Era*.

Mr. Abbott's books have been, and doubtless always will be, popular with all.—*Worcester Palladium*.

A delightful series of stories.—*American Spectator*.

Mr. Abbott is doing very much for the instruction and healthful amusement of the young. The "Franconia Stories" are delightful reading for young people of both sexes.—*Providence Daily Journal*.

An admirable series of tales for children.—*New Orleans Bee*.

The most attractive tales for children which have been issued from the press for years.—*Cincinnati Gazette*.

It is not often we meet with better told fictions.—ALFRED B. STREET.
