

ARTICLE XIX

CHINESE

SECTION 1. The Legislature shall prescribe all necessary regulations for the protection of the State, and the counties, cities, and towns thereof, from the burdens and evils arising from the presence of aliens who are or may become vagrants, paupers, mendicants, criminals, or invalids afflicted with contagious or infectious diseases, and from aliens otherwise dangerous or detrimental to the well-being or peace of the State, and to impose conditions upon which such persons may reside in the State, and provide the means and mode of their removal from the State, upon failure and refusal to comply with such conditions; *provided*, that nothing contained in this section shall be construed to impair or limit the power of the Legislature to pass such police laws or other regulations as it may deem necessary.

SEC. 2. No corporation now existing or hereafter formed under the laws of this State, shall, after the adoption of this Constitution, employ, directly or indirectly, in any capacity, any Chinese or Mongolian. The Legislature shall pass such laws as may be necessary to enforce this provision.

SEC. 3. No Chinese shall be employed on any State, county, municipal, or other public work, except in punishment for crime.

SEC. 4. The presence of foreigners ineligible to become citizens of the United States is declared to be dangerous to the well-being of the State, and the Legislature shall discourage their immigration by all the means within its power. Asiatic coolieism is a form of human slavery, and is for ever prohibited in this State, and all contracts for coolie labour shall be void. All companies or corporations, whether formed in this country or any foreign country, for the importation of such labour, shall be subject to such penalties as the Legislature may prescribe. The Legislature shall delegate all necessary power to the incorporated cities and towns of this State for the removal of Chinese without the limits of such cities and towns, or for their location within prescribed portions of those limits, and it shall also provide the necessary legislation to prohibit the introduction into this State of Chinese after the adoption of the Constitution. This section shall be enforced by appropriate legislation.

WORKS BY THE SAME AUTHOR.

Social Institutions of the United States.

REPRINTED FROM "THE AMERICAN COMMONWEALTH."

12mo. Cloth. \$1.00.

The Holy Roman Empire.

Eighth Edition, revised and enlarged. Crown 8vo. \$1.00.

Library Edition. 8vo. \$3.50.

The *Saturday Review* says: "It exactly supplies a want. . . . We know of no writer who has so thoroughly grasped the real nature of the mediæval empire, and its relations alike to earlier and later times."

Transcaucasia and Ararat.

BEING NOTES OF A VACATION TOUR IN THE AUTUMN OF 1876.

With Map and View of Mount Ararat.

Third Edition. Crown 8vo. \$2.50.

The *Times* says: "He has produced a very interesting volume, full of information. . . . In Professor Bryce's bold ascent of Ararat alone, when Kurds and Cossacks alike deserted him, we have a feat of mountain climbing which in itself proves him to be no unworthy member of the Alpine Club. This alone would render the book well worth reading, quite apart from the store of information contained in it."

The *Athenæum* says: "Mr. Bryce has written a lively and at the same time instructive description of the tour he made in and about the Caucasus. When so well informed a jurist travels into regions seldom visited, and even walks up a mountain so rarely scaled as Ararat, he is justified in thinking that the impressions he brings home are worthy of being communicated to the world at large."

HISTORY OF THE NEW WORLD CALLED
AMERICA.

By EDWARD JOHN PAYNE,

FELLOW OF UNIVERSITY COLLEGE, OXFORD.

Vol. I. 12mo. \$3.00.

"Leads the student in a novel direction. . . . The elucidation of the subject surpasses in thoroughness and clearness anything of the kind we have ever read before."—*N. Y. Times*.

"He has produced a volume of extraordinary interest, not more remarkable for its learning and force than for the extreme freshness of the point of view."—*N. Y. Times* (second notice).

". . . A work that promises to be of very unusual interest and value. Mr. Payne has taken up his important theme in an original and suggestive manner; and he is in the way to arrive at conclusions of great moment. The succeeding volumes of his narrative will undoubtedly be looked for with no little impatience."—*Boston Beacon*.

". . . The discussion of these ingenious theories does not fall within our province. We cannot, however, refrain from commending the painstaking thoroughness of the author's researches."—*Chicago Tribune*.

"We have before us the first instalment of the most comprehensive and, therefore, the most ambitious *History of America* that has ever been projected. In a series of volumes which, if we may judge from the limited space covered by the book now issued, will be a long one, the author, Mr. Edward John Payne, a Fellow of University College, Oxford, has undertaken to present a well-ordered and artistic digest of the results of a scientific study of the annals of the New World from its discovery to the present day."—*New York Sun* (first notice).

"We have here the first volume of a history of this continent which promises to cover a broad field, and to be more unique and interesting than any previous American history. It is refreshing to find, amid the deluge of 'Columbus' literature and histories which the approaching celebration is producing, such a learned, dispassionate, far-sighted opening volume of a history that bids fair to set all others in the background."—*St. Louis Republican*.

"To the exhaustive scientific and ethnical detail displayed in this first volume of what promises to be a most important work columns of review would fail to do justice; but it may be said that in beauty, dignity, and forcefulness of style the book is extraordinary. It enriches a theme still unworn, and makes the pursuit of it a pleasure higher than a pastime."—*St. Paul Pioneer Press*.

"His work rises at once to an eminent place among studies of great nations and their institutions. It is, so far as America goes, a work unique in scope, spirit, and knowledge. There is nothing like it anywhere extant,—nothing that approaches it. . . . Without exaggeration it may be called the most considerable and gratifying tribute that has yet been bestowed upon us by an Englishman, and perhaps by even England herself. . . . One despairs in an attempt to give in a single newspaper article an adequate account of a work so infused with knowledge and sparkling with suggestion. . . . Every thoughtful American will read it, and will long hold in grateful remembrance its author's name."—*New York Times.*
