INDEX.

N.B. The numbers refer to the headings under which the words or phrases occur. When the same word or phrase may be used in various senses, the several headings under which it, or its synonyms, will be found, according to those meanings, are indicated by the words printed in Italics. These words in Italics are not intended to explain the meaning of the word or phrase to which they are annexed, but only to assist in the required reference.

When a number or word of reference is placed within parentheses, the actual word or phrase will not be found under the heading referred to, although it may sometimes be useful to consult the category thus indicated.

When the word given in the Index is itself the title or heading of a category, the number of reference is printed in blacker type, thus: *abodo* 189.
