Sidney's Defense of Poesy.

Edited with an Introduction and Notes by ALBERT S. COOK, Professor of English in Yale University. 12mo. Cloth. xlv + 103 pages. By mail, 90 cents; for introduction, 80 cents.

AS a classic text-book of literary æsthetics, Sidney's Defense has enduring interest and value; but there is another good reason for the marked attention received by this book. The whole conception of the editor's work differs from the conventional idea. The notes are not mere items of learning, illustrative only of details. They are intended so to supplement the text of the author and the Introduction that the study of the connected whole, on lines indicated by the Specimen Questions and Topics, shall be a cumulative process, expanding and enriching the mind of the student, as well as informing it regarding the views of a distinguished and representative man who lived in one of the most vital periods in the history of our literature. This idea will make itself manifest as the cumulative process is carried on. Something of the character of Sidney as a man, of the grandeur of his theme, of the significance of poetry, of sound methods of profiting by poetry and of judging it,—ought to be disclosed by study of the book. Everything is considered with reference to the learner, as far as possible; and the point of view is not exclusively that of the grammarian, the antiquary, the rhetorician, or the explorer of Elizabethan literature, but has been chosen to include something of all these, and more.

George L. Kittredge, *Prof. of English, Harvard University*: It is extremely well done, and ought to be extremely useful.

William Minto, *Prof. of Literature, University of Aberdeen*: It seems to me to be a very thorough and instructive piece of work. The interests of the student are consulted in every sentence of the Introduction and Notes, and the paper of questions is admirable as a guide to the thorough study of the substance of the essay. There is no surplusage, no flabbiness.

F. B. Gummere, *Prof. of English and German, Haverford College*: It is a wholly admirable piece of work, and has already done good service in my class.

John F. Genung, *Professor of Rhetoric, Amherst College*: It is the work of a true scholar, who at every step is mindful not only of the interest of the work as a monument of the past, but of its value for all time as an exposition of the art of poetry. Introduction and notes are alike excellent, and the tasteful print and binding leave nothing to be desired.

Shelley's Defense of Poetry.

Edited, with Introduction and Notes, by ALBERT S. COOK, Professor of English in Yale University. 12mo. Cloth. xxvi + 86 pages. Price by mail, 60 cents; for introduction, 50 cents.

SHELLEY'S *Defense* may be regarded as a companion-piece to that of Sidney. In their diction, however, the one is of the sixteenth century and the other of the nineteenth. For this reason a comparison of the two is of interest to the student of historical English style. But, apart from this, the intrinsic merits of Shelley's essay must ever recommend it to the lover of poetry and of beautiful English. The truth which he perceives and expounds is one which peculiarly needs enforcement at the present day, and it is nowhere presented in a more concise or attractive form.

John F. Genung, *Prof. of Rhetoric, Amherst College*: By his excellent editions of these three works, Professor Cook is doing invaluable service for the study of poetry. The works themselves, written by men who were masters alike of poetry and prose, are standard as literature; and in the introductions and notes, which evince in every part the thorough and sympathetic scholar, as also in the beautiful form given to the books by printer and binder, the student has all the help to the reading of them that he can desire.

Cardinal Newman's Essay on Poetry.

With reference to Aristotle's *Poetics*. Edited, with Introduction and Notes, by ALBERT S. COOK, Professor of English in Yale University. 8vo. Limp cloth. x + 36 pages. Mailing price, 35 cents; for introduction, 30 cents.

THE study of what is essential and what accidental in poetry is more and more engaging the attention of thoughtful men, particularly those occupied with educational work. Newman's *Essay* expresses the view of one who was a man of both action and theory. Besides this, the *Essay* is a notable example of the literary work of one who has been considered the greatest master of style in this generation. The illustrative apparatus provided by the editor includes practical hints on the study of Greek drama in English, an index, an analysis, and a few suggestive notes.

Hiram Corson, *Prof. of English, Cornell University*. In its editorial character it's an elegant piece of work. . . . The introduction is a *multum in parvo* bit of writing; and the notes show the *recherché* scholarship of the editor.

Ben Jonson's Timber: or Discoveries;

Made upon Men and Matter, as they have Flowed out of his Daily Reading, or had their Reflux to his Peculiar Notions of the Times.

Edited, with Introduction and Notes, by FELIX E. SCHELLING, Professor in the University of Pennsylvania. 12mo. Cloth. xxxviii + 166 pages. Mailing price, 90 cents; for introduction, 80 cents.

"JONSON'S notes of observations on men and morals, on principles and on facts," says Mr. Swinburne, "are superior to Bacon's in truth of insight, in breadth of view, in vigor of reflection, and in concision of eloquence."

This is the first attempt to edit a long-neglected English classic, which needs only to be better known to take its place among the best examples of the height of Elizabethan prose. The text — the restoration of which entitles the book to a place in every library — is based on a careful collation of the folio of 1641 with subsequent editions; with such modernization in spelling and punctuation as a conservative judgment has deemed imperative. The introduction and a copious body of notes have been framed with a view to the intelligent understanding of an author whose wide learning and wealth of allusion make him the fittest exponent of the scholarship as well as the literary style and feeling of his age.

A Primer of English Verse.

By HIRAM CORSON, Professor of English Literature in Cornell University. 12mo. Cloth. 000 pages. By mail, ; for introduction, cents.

THE leading purpose of this volume is to introduce the student to the aesthetic and organic character of English Verse — to cultivate his susceptibility to verse as an inseparable part of poetic expression. To this end, the various effects provided for by the poet, either consciously or unconsciously on his part, are given for the student to practice upon, until those effects come out distinctly to his feelings. Much may be taught and learned, as a matter of *knowledge*, about verse; but if the knowledge is not indorsed by the feelings of the student, the mere scholarship of verse avails little or nothing. It is presumed that all the examples be so vocalized by the teachers, as to bring the effects provided for home to the student; the student, in his turn, to be afterward required to show his sense of the effects, by his own rendition of the examples.
