Poesie für Haus und Schule. A COLLECTION OF GERMAN POEMS
FOR USE IN SCHOOLS AND FAMILIES. Selected and arranged by
L. R. KLEMM. \$1 25

EXTRACTS FROM THE PRESS.

"This is one of the neatest and best collections of German poems that we have seen for many a day. It is published in a handy volume, upon handsome paper, with clear type,—in fact a model of dainty typography. The contents will merit their setting. There is scarcely a place where German is taught that it would not be serviceable, and if it is received with the favor it merits, it will quickly supplant the less full and poorer collections hitherto in use."—*Journal of Education*.

"This is a most excellent collection of German poems. They are arranged in four parts according to a system of gradation, and it is refreshing to find that here a single book is sufficient for the purpose which ordinarily would require four."—*The Churchman*.

"The editor reminds readers in his preface of Goethe's maxim, that one should read at least 'one good poem a day.' He says beautiful precepts and truths expressed in good poetry will ever exercise a beneficial influence, and young and old will enjoy them as though they were their own thoughts. The collection will be of great service to students in the German language."—*Evening Express*.

"The poems in this collection have been selected and arranged with excellent judgment. German poetry has many short pieces that are poetical gems. Large use has been made of these, and variety of topics and meters has been carefully kept in view. The book is very handsomely printed, and in all respects it deserves attention."—*Worcester Spy*.

"The book contains the gems of German minor song, by the greatest German singers, and will prove a most acceptable and valuable contribution to the stock of school and family reading."—*St. Louis Republican*.

"Must prove advantageous wherever the German language is being learned or spoken among English-speaking people."—*Commonwealth*.

"There are none but good poems in it, and we are greatly mistaken if this is not the very book that many a teacher has been looking for in vain."—*Examiner and Chronicle*.

"No language presents so well as the German an opportunity to prepare a compilation in which the simplest poems shall still be of a high order of literary merit, and the scholar shall become acquainted with great authors in their most playful moods. The book has that most necessary characteristic in a book for young readers of a foreign tongue, it is very attractive in its appearance, and the type is all that the eyes most unfamiliar with the German could desire."—*Christian Union*.

"Nothing facilitates the acquisition of German more than the committing to memory of short poems; and a judicious selection for this purpose, or for reading in classes or at random, will be welcome to thousands. Mr. Klemm has drawn from the purer fountains of German verse, and has arranged the pieces in four sections adapted to the use of our graded schools, giving twenty-five of the simple kind for primary pupils, increasing the quantity and complexity for the intermediate and grammar grades, and devoting two-fifths of the whole to the needs of the high schools. The literary range is wide, and the standard high."—*Christian Register*.

EXTRACTS FROM THE PRESS AND PROFESSORS' LETTERS.

"We commend them most heartily to our teachers, and confidently predict that wherever one of these volumes is used, the whole series will speedily and eagerly be adopted."—*Educational Monthly of Virginia*.

"We find them to be very accurate and reliable in the presentation of the text, and concise and scholarly in the introduction and commentary. We are glad to know that we are not to lack hereafter what we have heretofore greatly needed—a carefully edited and scholarly series of text books for the student of German literature."—*School Bulletin*.

"We cannot commend the make-up of HERMANN AND DOROTHEA too highly, its elegance and neatness justifying all praise. The complete set will be as valuable to a student or to a reader of German as any we have seen of its class, and a large demand would but be a just appreciation of the care and fine qualities shown by the editor, or the taste and beauty of the little volumes themselves."—*Daily Evening Traveller*.

"The series will form a set of delightful and valuable text-books for the students of German. I shall without doubt introduce some or all of them into my classes."—PROF. WHITE of Wabash College.

"They are the best edited text-books in modern languages that it has ever been my good fortune to meet with."—PROF. MASSIE of Richmond College.

"GOETHE'S PROSE deserves special commendation for the exquisite perfection of the text, no less than for the care Prof Hart, so thoroughly at home on such subjects, has displayed, both as editor and commentator. The reception of the experimental volumes has been so cordial as to justify the publication of the supplementary series."—*N. Y. World*.

"This series is proving its worth wherever brought into use. There is no question that the study of the German language might be greatly extended with profit, and as a means to an end the German classics are serving an invaluable purpose, by introducing to the students of that language the best thoughts in both poetry and prose of the German literature."—*Syracuse Journal*.

"A gentleman of the acknowledged ability of Professor Hart, with such a praiseworthy intention, can hardly fail to do such good work. The excellence of the plan of the work, and the thoroughness of the notes are seen at a glance."—*Liberal Christian*.

"They are treasures of which students and lovers of German literature should not fail to possess themselves, and which can be received only with the highest favor."—*Commonwealth*.

"James Morgan Hart is one of the best known American students of German. He has written several things on Germany and the German character that entitle his opinions to the highest respect. He is of all men the one most eminently fitted for the task of editing this series, and we can heartily recommend it to American readers of German."—*The Journal*.
