OR THE TESTIMONY OF  
EVOLUTION AND PSYCHOLOGY  
TO THE FATHERHOOD OF GOD

By THOMSON JAY HUDSON, LL.D.

AUTHOR OF "THE LAW OF PSYCHIC PHENOMENA," ETC.

Dr. Hudson's new book presents an original interpretation of the facts which have been accumulated by the labors of evolutionists, Haeckel, Darwin, Spencer, and the rest; and, in an argument founded on a demonstration of the fact that the God-like powers of man exist potentially in the lowest forms of life known to us, strengthens the belief in Christian Theism and deals a formidable blow to the position assumed by atheists. Dr. Hudson's conception of evolution is worked out with the same avoidance of vague theory, and the same adherence to a basis of well-authenticated facts and to cogent and logical reasoning, which characterize his former works. It will prove a helpful and interesting work to every thoughtful man and woman.

Dr. Hudson has an interesting style, a method at once deliberate and energetic, and his instances are well chosen and effective. He has avoided, in this book at least, one of the pitfalls of writers on psychology, a redundancy of illustration. . . . The argument is a strong one, strongly presented, and there is no reason to doubt that it will be well received by the thousands of readers who are deeply interested in this vital subject.— *The Pioneer Press*, St. Paul.

Dr. Hudson's line of argument is strikingly original and remarkable for its logic and strength. He makes out a case that cannot fail to impress the reader who follows him.— *The Detroit Free Press*.

# A Scientific Demonstration of the Future Life.

By THOMSON JAY HUDSON, LL.D.

AUTHOR OF "THE LAW OF PSYCHIC PHENOMENA."

One of the most interesting works of the season is "A Scientific Demonstration of the Future Life." The entire subject is treated in a firmly scientific manner; nothing of theory or vague arguing is admitted; and there is no doubt that the book will be as widely read and discussed as was its predecessor, "The Law of Psychic Phenomena." — *Chicago Daily News.*

The success that "The Law of Psychic Phenomena" met with induced the author to prepare and publish the present volume, "for the purpose of carrying to their legitimate conclusions some of the principles laid down" in his former one. Dr. Hudson, in pursuing his inquiry, has endeavored to follow the strictest rules of scientific induction, taking nothing for granted that is not axiomatic, and holding that there is nothing worthy of belief that is not sustained by a solid basis of well-authenticated facts. — *The New York Times.*

This latest work is written for the purpose of carrying to their legitimate conclusions some of the principles laid down in "The Law of Psychic Phenomena." The book is a masterly effort of convincing argument, and may be read with profit by scientist and scholar. — *The Evening Wisconsin.*

# NATIONAL EPICS.

By KATE MILNER RABB.

12mo, 398 pages, \$1.50.

---

Mrs. Rabb's treatment of each epic consists of (1) A descriptive sketch of the poem; (2) An outline of the historical narrative embraced in it; (3) Selections, each of which narrates a complete incident; (4) A short bibliography of each poem; (5) A list of standard English translations of the foreign epics. The last two of these items make the book valuable as a work of reference. The author has performed her heavy task with such diligence and literary ability as will certainly win much credit to herself, and be the means of edifying and entertaining many a grateful reader.

This is an excellent guide to a knowledge and appreciation of the world's great epic poems. The Hindu, Greek, Roman, Finnish, Saxon, German, French, Spanish, Italian, Portuguese, English, and Persian epics of distinctively national importance are all represented. . . . The compiler has performed a useful service in making accessible in the compass of a single volume so much material for the study of these noble poems. — *The Review of Reviews*, New York.

The book is distinguished by unusual merit. The volume may be heartily commended as a scholarly and satisfactory piece of work, admirably arranged, and presenting some features which set it apart from similar condensations. — *Public Ledger*, Philadelphia.

Kate Milner Rabb has done a good turn for busy people and for those whose literary inclinations are not strong enough to sustain a desire to read the epics which are the basis of literature. — *The Evening Wisconsin.*

Mrs. Rabb succeeds admirably in summarizing the stories of the epics. She has endeavored to retain the characteristic epithets of the originals as much as possible, and to reflect in her diction their essential spirit. It is sufficient proof of her success that her brief prose paraphrases remind one at times of the so-called "Poems of Ossian." — *New York Commercial Advertiser.*

The idea is an admirable one, and is well carried out. These short stories cannot fail to awaken a curiosity which will only be satisfied with a larger study of the great epics of the world. — *The Advance.*

A wonderfully useful book for busy people. — *St. Paul Pioneer Press.*

The wonder is that it was not done long ago. — *Chicago Tribune.*
