## LEADING FACTS OF AMERICAN HISTORY

By D. H. MONTGOMERY.

Half Leather. 365 pages. With full Maps, full-page illustrations, Appendices, etc. For introduction, \$1.00.

### THE MOST STRIKING FEATURES OF THE BOOK.

1. **The Author.**—The author is Mr. D. H. Montgomery, the eminent and successful writer of historical text-books.
2. **General Plan and Style.**—The general plan and style of this work will be found similar to the other histories by Mr. Montgomery. The main difference is that the American History is adapted for younger pupils.
3. **Leading Events discussed in their true shape and proportions.**—The greatest merit of the book is in the judgment with which the leading events in the development of our country have been selected and the vividness with which they are placed before the reader's mind.
4. **It has been written and not merely compiled.**—The book has been written and not merely compiled. Hence it has an interest and charm like that of a story told by an eye-witness of the events.
5. **Causes fully traced; results adequately shown.**—Not only are the important events clearly and luminously sketched, but their causes are fully traced and the results of all important events adequately shown.
6. **Every subject handled impartially.**—The author has treated all subjects impartially; following the course of events as an eye-witness elevated above the plane of contention.
7. **Accuracy studied.**—Accuracy has been diligently and patiently studied, and investigations of original documents have been made where leading authorities have been found to disagree.
8. **Useful features of the book.**—Every section ends with a brief summary. Copious notes are added with many cross-references. The book contains an unusually large number of maps besides numerous fine engravings carefully selected as historical illustrations. Chronological and statistical tables, a list of reference books, index, questions, the Declaration of Independence, and the Constitution have been added.

Montgomery's *Leading Facts of American History* is full of thought and intellectual life. It has been pronounced by the educational jury the best text-book on the subject,—accurate, philosophical, unprejudiced, of rare interest, easily handled by teachers, and easily grasped by children.
