Jepson's Music Readers. 3 vols. - - - Each 75

These are not books from which children simply learn songs, parrot-like, but teach the subject progressively—the scholar learning to read music by methods similar to those employed in teaching him to read printed language. Any teacher, however ignorant of music, provided he can, upon trial, simply sound the scale, may teach it without assistance, and will end by being a good singer himself. The "Elementary Music Reader," or first volume, fully develops the system. The two companion volumes carry the same method into the higher grades, but their use is not essential.

The First Reader is also published in three parts, at 30 cents each, for those who prefer them in that form.

Teachers' Hand-Book — Phelps \$1 50

By WM. F. PHELPS, Principal of Minnesota State Normal School. Embracing the objects, history, organization and management of Teachers' Institutes, followed by Methods of Teaching, in detail, for all the fundamental branches. Every young teacher, every practical teacher, every experienced teacher even, needs this book.

From the New York Tribune.

"The discipline of the school should prepare the child for the discipline of life. The country schoolmaster, accordingly, holds a position of vital interest to the destiny of the republic, and should neglect no means for the wise and efficient discharge of his significant functions. This is the key-note of the present excellent volume. In view of the supreme importance of the teacher's calling, Mr. Phelps has presented an elaborate system of instruction in the elements of learning, with a complete detail of methods and processes, illustrated with an abundance of practical examples and enforced by judicious counsels, which may serve as an aid to the teacher in the performance of his arduous duties, and in the attainment of the highest excellence in his profession. The author's directions may not always be accepted without challenge by experienced instructors, who, however, are encouraged to think for themselves; but they are always suggestive, and cannot fail to be of signal value to those who are just entering upon their profession and beginning to comprehend its difficulties, as well as to discover its secrets."

NEW LIBRARY OF HISTORY.

Barnes' Centenary History, - - - - - *\$6 00

"One Hundred Years of American Independence." This superbly illustrated work, by the author of "Barnes' Brief Histories" (for schools), is appropriately issued in the "centennial year" (1876). An extended Introduction brings down the history from the earliest times. The leading idea is to make American History popular for the masses, and especially with the young. The style is therefore life-like and vivid, carrying the reader along by the sweep of the story as in a novel, so that when he begins an account of an important event he cannot very well lay down the book until he finishes.

Sold only by subscription.

Lamb's History of New York City.

One of the most important works ever issued. It opens with a brief outline of the condition of the old world prior to the settlement of the new, and proceeds to give a careful analysis of the two great Dutch Commercial Corporations to which New York owes its origin. It sketches the rise and growth of the little colony on Manhattan Island; describes the Indian Wars with which it was afflicted; gives color and life to its Dutch rulers; paints its subjugation by the English, its after vicissitudes, the Revolution of 1689; in short, it leads the reader through one continuous chain of events down to the American Revolution. Then, gathering up the threads, the author gives an artistic and comprehensive account of the progress of the City, in extent, education, culture, literature, art, and political and commercial importance, during the last century. Prominent persons are introduced in all the different periods, with choice bits of family history, and glimpses of social life. The work contains maps of the City in the different decades, and several rare portraits from original paintings, which have never before been engraved. The illustrations, about 250 in number, are all of an interesting and highly artistic character.

The work is now being published, by subscription only, in about 24 parts, at 50 cents each.
