

INDEX
TO
THE ILLUSTRATIONS,

EMBRACING

SIX HUNDRED AND THIRTY-SIX FIGURES.

A HIGHLY FINISHED VIEW OF THE BONES OF THE HEAD facing the title-page.
VIEW OF CUVIER'S ANATOMICAL THEATRE vignette.

PART I

BONES AND LIGAMENTS.

Fig.	Page	Fig.	Page
1. Front View of Adult Skeleton	17	36. The First Rib	30
2. Back View of Adult Skeleton	18	37. General Characters of a Rib	30
3. Fœtal Skeleton	19	38. Front View of the Sternum	30
4. Cellular Structure of Femur	20	39. Head of a Peruvian Indian	31
5. Cellular and Compact Structure of Tibia	20	40. Head of a Choctaw Indian	31
6. Fibres of Compact Matter of Bone	20	41. Front View of the Os Frontis	31
7. Concentric Lamellæ of Bone	20	42. Under Surface of the Os Frontis	31
8. Compact Matter under the Microscope	21	43. Internal Surface of the Os Frontis	32
9. Haversian Canals and Lacunæ of Bone	21	44. External Surface of the Parietal Bone	32
10. Vessels of Compact Matter	21	45. Internal Surface of the Parietal Bone	32
11. Minute Structure of Bones	21	46. External Surface of the Os Occipitis	33
12. Ossification in Cartilage	22	47. Internal Surface of the Os Occipitis	33
13. Ossification in the Scapula	22	48. External Surface of the Temporal Bone	33
14. Puncta Ossificationis in Femur	22	49. Internal Surface of the Temporal Bone	33
15. Side View of the Spinal Column	23	50. Internal Surface of the Sphenoid Bone	34
16. Epiphyses and Diaphysis of Bone	23	51. Anterior and Inf. Surface of the Sphenoid Bone	34
17. External Periosteum	23	52. Posterior Surface of the Ethmoid	34
18. Punctum Ossificationis in the Head	24	53. Front View of the Bones of the Face	35
19. A Cervical Vertebra	24	54. Outside of the Upper Maxilla	35
20. The Atlas	24	55. Inside of the Upper Maxilla	35
21. The Dentata	24	56. Posterior Surface of the Palate Bone	36
22. Side View of the Cervical Vertebrae	25	57. The Nasal Bones	36
23. Side View of the Dorsal Vertebrae	25	58. The Os Unguis	36
24. A Dorsal Vertebra	25	59. Inferior Spongy Bone	36
25. Side View of the Lumbar Vertebrae	26	60. Right Malar Bone	36
26. Side View of one of the Lumbar Vertebrae	26	61. The Vomer	37
27. Perpendicular View of the Lumbar Vertebrae	26	62. Inferior Maxillary Bone	37
28. Anterior of Sacrum	27	63. Sutures of the Vault of the Cranium	37
29. Posterior View of Sacrum	27	64. Sutures of the Posterior of the Cranium	37
30. The Bones of the Coccyx	27	65. Diploe of the Cranium	38
31. Outside View of the Innominatum	28	66. Inside of the Base of the Cranium	38
32. Inside View of the Innominatum	28	67. Outside of the Base of the Cranium	38
33. Anterior View of the Male Pelvis	29	68. The Facial Angle	39
34. Anterior View of the Female Pelvis	29	69. The Fontanels	39
35. Front of the Thorax	30	70. The Os Hyoides	39

PART I. ILLUSTRATIONS.

Fig.	Page	Fig.	Page
71. Posterior of the Scapula	40	100. Ligaments of the Jaw	48
72. Axillary Margin of the Scapula.....	40	101. Internal View of the same	48
73. The Clavicle	40	102. Vertical Section of the same	48
74. The Humerus	41	103. Anterior Vertebral Ligaments	49
75. The Ulna	41	104. Posterior Vertebral Ligaments	49
76. The Radius	41	105. Yellow Ligaments	49
77. The Bones of the Carpus	42	106. Costo-Vertebral Ligaments	50
78. The Bones of the Hand.....	42	107. Occipito-Altoidien Ligaments.....	50
79. Articulation of the Carpal Bones.....	42	108. Posterior View of the same.....	50
80. Anterior View of the Femur	43	109. Upper Part of the same	50
81. Posterior View of the Femur	43	110. Moderator Ligaments	51
82. The Tibia	43	111. Anterior Pelvic Ligaments	51
83. The Fibula	44	112. Posterior Pelvic Ligaments.....	51
84. Anterior View of the Patella	44	113. Sterno-Clavicular Ligaments	52
85. Posterior View of the Patella	44	114. Scapulo-Humeral Articulation	52
86. The Os Calcis	44	115. External View of Elbow Joint	52
87. The Astragalus.....	44	116. Internal View of Elbow Joint	52
88. The Navicular.....	45	117. Ligaments of the Wrist	53
89. The Cuboid Bone	45	118. Diagram of the Carpal Synovial Membranes	53
90. The Three Cuneiform Bones.....	45	119. Ligaments of the Hip Joint	54
91. Top of the Foot	45	120. Anterior View of the Knee Joint	54
92. The Sole of the Foot	45	121. Posterior View of the Knee Joint	54
93. Cells in Cartilage	46	122. Section of the Right Knee Joint	55
94. Articular Cartilage under the Microscope...	46	123. Section of the Left Knee Joint	55
95. Costal Cartilage under the Microscope	46	124. Internal Side of the Ankle Joint	55
96. Magnified Section of Cartilage.....	46	125. External Side of the Ankle Joint	55
97. Magnified View of Fibro-Cartilage	47	126. Posterior View of the Ankle Joint	56
98. White Fibrous Tissue	47	127. Ligaments on the Sole of the Foot	56
99. Yellow Fibrous Tissue	47	128. Vertical Section of the Foot	56

PART II.

DERMOID AND MUSCULAR SYSTEMS.

129. Muscles on the Front of the Body, full length	59	158. Arrangement of Fibres of Muscle	67
130. Muscles on the Back of the Body, full length	60	159. Disks of Muscular Fibre	67
131. The Cellular Tissue	61	160. Muscular Fibre broken transversely	67
132. Fat Vesicles	61	161. Striped Elementary Fibres, magnified	68
133. Blood-Vessels of Fat	61	162. Striae of Fibres from the Heart of an Ox ..	68
134. Cell Membrane of Fat Vesicles	61	163. Transverse Section of Biceps Muscle	68
135. Magnified View of the Epidermis	62	164. Fibres of the Pectoralis Major	68
136. Cellular Tissue of the Skin	62	165. Attachment of Tendon to Muscle	68
137. Rete Mucosum, &c. of Foot	62	166. Nerve terminating in Muscle	69
138. Epidermis and Rete Mucosum	62	167. Superficial Muscles of Face and Neck	69
139. Cutis Vera, Magnified	63	168. Deep-seated Muscles of Face and Neck	70
140. Cutaneous Papillæ	63	169. Lateral View of the same	70
141. Internal Face of Cutis Vera	63	170. Lateral View of Superficial Muscles of Face	71
142. Integuments of Foot under the Microscope	63	171. Lateral View of Deep-seated Muscles of Face	71
143. Cutaneous Glands	64	172. Tensor Tarsi or Muscle of Horner	72
144. Sudoriferous Organs	64	173. Pterygoid Muscles	73
145. Sebaceous Glands and Hairs	64	174. Muscles of Neck	73
146. Perspiratory Gland Magnified	65	175. Muscles of Tongue	73
147. A Hair under the Microscope	65	176. Fascia Profunda Colli	73
148. A Hair from the Face under the Microscope	65	177. Superficial Muscles of Thorax	74
149. Follicle of a Hair	65	178. Deep-seated Muscles of Thorax	74
150. Arteries of a Hair	65	179. Front View of Abdominal Muscles	75
151. Skin of the Beard, Magnified	66	180. Side View of Abdominal Muscles	75
152. External Surface of the Thumb Nail	66	181. External parts concerned in Hernia	76
153. Internal Surface of the Thumb Nail.....	66	182. Internal parts concerned in Hernia	76
154. Section of Nail of Fore Finger	66	183. Deep-seated Muscles of Trunk	77
155. Same highly magnified	66	184. Inguinal and Femoral Rings	77
156. Development of Muscular Fibre	67	185. Deep-seated Muscles of Neck	78
157. Another View of the same	67	186. Superficial Muscles of Back	78

PART II. ILLUSTRATIONS.

Fig.	Page	Fig.	Page
187. Posterior Parietes of Chest and Abdomen ..	79	219. Deep Muscles on Back of Arm	90
188. Under side of Diaphragm	79	203. Flexor Muscles of Fore-Arm	85
189. Second Layer of Muscles of Back	80	204. Muscles in Palm of Hand	85
190. Muscles of Vertebral Gutter	80	205. Deep Flexors of the Fingers	85
191. Fourth Layer of Muscles of Back	81	206. Superficial Extensors	86
192. Muscles behind Cervical Vertebrae	81	207. Deep-seated Extensors	86
193. Deltoid Muscle	82	208. Rotator Muscles of the Thigh	86
194. Anterior View of Muscles of Shoulder	82	209. Muscles on the Back of the Hip	87
195. Posterior View of Muscles of Shoulder	82	210. Deep Muscles on the Front of Thigh	87
196. Another View of the same	82	211. Superficial Muscles on the Front of Thigh	88
197. Fascia Brachialis	83	212. Muscles on the Back of the Thigh	88
198. Fascia of the Fore-Arm	83	213. Muscles on Front of Leg	88
199. Muscles on the Back of the Hand	83	214. Muscles on Back of Leg	89
200. Muscles on the Front of the Arm	84	215. Deep-seated Muscles on Back of Leg	89
201. Muscles on the Back of the Arm	84	216. Muscles on the Sole of the Foot.....	89
202. Pronators of the Fore-Arm	84	217. Another View of the same	89
218. Deep Muscles on Front of Arm	90		

PART III.

ORGANS OF DIGESTION AND GENERATION.

220. Digestive Organs in their whole length ...	93	289. Under Side of the Soft Palate	101
221. Cavity of the Mouth	93	290. A Lobule of the Parotid Gland	101
222. Labial and Buccal Glands	93	291. Salivary Glands	102
223. Teeth in the Upper and Lower Jaws	94	292. Internal Surface of the Pharynx	102
224. Upper Jaw, with Sockets for Teeth	94	293. External Surface of the Pharynx	102
225. Lower Jaw, with Sockets for Teeth	94	294. Vertical Section of the Pharynx	103
226. Under Side of the Teeth in the Upper Jaw.	94	295. Muscular Coat of the Oesophagus	103
227. Upper Side of the Teeth in the Lower Jaw.	94	296. Longitudinal Section of the Oesophagus ..	103
228 to 235. Eight Teeth, from one side of the		297. Parietes of the Abdomen	104
Upper Jaw	95	298. Reflexions of the Peritoneum	104
236 to 243. Eight Teeth, from one side of the		299. Viscera of the Chest and Abdomen.....	105
Lower Jaw	95	300. Another View of the same	105
244 to 251. Side View of Eight Upper Jaw		301. The Intestines in Situ	106
Teeth	95	302. Stomach and Oesophagus	106
252 to 259. Side View of Eight Lower Jaw		303. Front View of the Stomach	107
Teeth	96	304. Interior of the Stomach	107
260 to 265. Sections of Eight Teeth	96	305. The Stomach and Duodenum	107
266 to 267. Enamel and Internal Structure of		306. Interior of the Duodenum	108
Two of the Teeth	96	307. Gastric Glands	108
268. Bicuspid Tooth under the Microscope	97	308. Mucous Coat of the Stomach	108
269. Position of Enamel Fibres	97	309. An Intestinal Villus.....	108
270. Hexagonal Enamel Fibres	97	310. Its Vessels	108
271. Enamel Fibres very highly magnified	97	311. Glands of the Stomach, magnified	108
272. A very highly Magnified View of Fig. 268	97	312. Villus and Lacteal	108
273. Internal portion of the Dental Tubes	98	313. Muscular Coat of the Ileum	109
274. External portion of the Dental Tubes	98	314. Jejunum distended and dried	109
275. Section of the Crown of a Tooth	98	315. Follicles of Lieberkuhn	109
276. Tubes at the Root of a Bicuspid	98	316. Glands of Brunner	109
277. Upper Surface of the Tongue	98	317. Intestinal Glands	109
278. Under Surface of the Tongue	99	318. Valvulae Conniventes	109
279. Periglottis turned off the Tongue	99	319. Ileo-Colic Valve	109
280. Muscles of the Tongue	99	320. Villi and Intestinal Follicles	110
281. Another View of the same	99	321. Veins of the Ileum	110
282. Section of the Tongue	100	322. Villi filled with Chyle	110
283. Styloid Muscles, &c.	100	323. Peyer's Glands	110
284. Section of a Gustatory Papilla	100	324. Villi of the Jejunum under the Microscope	110
285. View of another Papilla	100	325. The Cæcum	111
286. Root of the Mouth and Soft Palate	101	326. The Mesocolon and Colon	111
287. Front View of the Pharynx and Muscles ..	101	327. Muscular Coat of the Colon	111
288. Back View of the Pharynx and Muscles ..	101	328. Muscular Fibres of the Rectum	111

PART III. ILLUSTRATIONS.

Fig.	Page	Fig.	Page
329. Curvatures of the Large Intestine	112	370. The Bladder and Urethra, full length	121
330. Mucous Follicles of the Rectum	112	371. Muscular Coat of the Bladder	121
331. Rectal Pouches	112	372. Another View of the same	121
332. Follicles of the Colon, highly magnified	113	373. Sphincter Apparatus of the Bladder	122
333. Folds and Follicles of the Stomach	113	374. Prostate and Vesiculæ Seminales	122
334. Follicles, &c. of the Jejunum	113	375. Side View of the Pelvic Viscera	122
335. Villi and Follicles of the Ileum	113	376. The Glans Penis injected	123
336. Muciparous Glands of the Stomach	114	377. The Penis distended and dried	123
337. Ileum inverted, &c.	114	378. Section of the same	123
338. Glands of Peyer magnified	114	379. Vertical Section of the Male Pelvis, &c.	123
339. Peritoneum of the Liver injected	115	380. Septum Pectiniforme	123
340. Liver in Situ	115	381. Arteries of the Penis	123
341. Under surface of the Liver	115	382. Vertical Section of the Urethra	123
342. Hepatic Vein	115	383. Vesiculæ Seminales injected	123
343. Parenchyma of the Liver	115	384. Muscles of the Male Perineum	124
344. Hepatic Blood-Vessels	116	385. Interior of the Pelvis, seen from above	124
345. Biliary Ducts	116	386. Testis in the Fœtus	125
346. Angular Lobules of the Liver	116	387. Diagram of the Descent of the Testis	125
347. Rounded Hepatic Lobules	116	388. Tunica Vaginalis Testis	125
348. Coats of the Gall Bladder	116	389. Transverse Section of the Testis	125
349. Gall Bladder injected	116	390. Relative Position of the Prostate, &c.	126
350. Vena Portarum	117	391. Vas Deferens	126
351. External Face of the Spleen	117	392. Vertical Section of the Bladder	126
352. Internal Face of the Spleen	117	393. The Testicle injected with Mercury	126
353. Splenic Vein	117	394. Another View	126
354. Pancreas, &c., injected	117	395. Minute Structure of the Testis	126
355. Urinary Organs	118	396. Female Generative Organs	127
356. Right Kidney and Capsule	118	397. Another View of the same	127
357. Left Kidney and Capsule	118	398. External Organs in the Fœtus	127
358. Kidney under the Microscope	118	399. Muscles of the Female Perineum	127
359. The Ureter	118	400. Side View of the Female Pelvis, &c.	128
360. Section of the Right Kidney	118	401. Relative Position of the Female Organs	128
361. Section of the Left Kidney	118	402. Section of the Uterus, &c.	128
362. Pyramids of Malpighi	119	403. Fallopian Tubes, Ovaries, &c.	129
363. Lobes of the Kidney	119	404. Front View of the Mammary Gland	129
364. Renal Arteries, &c., injected	119	405. The same after removal of the Skin	129
365. Section of the Kidney highly magnified	120	406. Side View of the Breast	130
366. Corpora Malpighiana	120	407. Origin of Lactiferous Ducts	130
367. Same magnified	120	408. Lactiferous Tubes during Lactation	130
368. Tubuli Uriniferi	120	409. Minute Termination of a Tube	130
369. Corpora Wolfiana	120	410. Ducts injected; after Sir Astley Cooper	130

PART IV.

ORGANS OF RESPIRATION AND CIRCULATION.

411. Front View of the Thyroid Cartilage	133	427. Front View of the Lungs	136
412. Side View of the Thyroid Cartilage	133	428. Back View of the Lungs	136
413. Posterior of the Arytenoid Cartilage	133	429. The Trachea and Bronchia	137
414. Anterior of the Arytenoid Cartilage	133	430. Lungs, Heart, &c.	137
415. Epiglottis Cartilage	133	431. First appearance of the Blood-vessels	138
416. Cricoid Cartilage	133	432. Capillary Vessels magnified	138
417. Ligaments of the Larynx	134	433. Another View of the same	138
418. Side View of the same	134	434. Blood Globules	138
419. The Thyroid Gland	134	435. Another View of the same	138
420. Internal Surface of the Larynx	134	436. The Mediastina	139
421. Crico-Thyroid Muscles	135	437. Parenchyma of the Lung	139
422. Crico-Arytenoid Muscles	135	438. The Heart and Pericardium	139
423. Articulations of the Larynx	135	439. Anterior View of the Heart	139
424. Vertical Section of the Larynx	135	440. Posterior View of the Heart	139
425. The Vocal Ligaments	135	441. Anterior View of its Muscular Structure	140
426. Thymus Gland	135	442. Posterior View of the same	140

PART IV. ILLUSTRATIONS.

Fig.	Page	Fig.	Page
443. Interior of the Right Ventricle	140	476. Superficial Arteries on the Top of the Foot	153
444. Interior of the Left Ventricle	140	477. Deep-seated Arteries on the Top of the Foot	153
445. Mitral Valve, the size of life	140	478. Posterior Tibial Artery at the Ankle	153
446. The Auriculo-Ventricular Valves	141	479. The Plantar Arteries	153
447. Section of the Ventricles	141	480. Arteries and Veins of the Face and Neck	154
448. The Arteries from the Arch of the Aorta	141	481. Great Vessels from the Heart	155
449. The Arteries of the Neck, the size of life	142	482. External Jugular Vein	155
450. The External Carotid Artery	143	483. Lateral View of the Vertebral Sinuses	156
451. A Front View of the Arteries of the Head and Neck	143	484. Posterior View of the Vertebral Sinuses	156
452. The Internal Maxillary Artery	144	485. Anterior View of the Vertebral Sinuses	156
453. Vertebral & Carotid Arteries with the Aorta	144	486. Superficial Veins of the Arm	157
454. Axillary and Brachial Arteries	144	487. The same at the Elbow	157
455. The Brachial Artery	145	488. The Veins of the Hand	157
456. Its Division at the Elbow	145	489. The Great Veins of the Trunk	158
457. One of the Anomalies of the Brachial Artery	145	490. Relative positions of the Arteries and Veins of the Trunk	158
458. Radial and Ulnar Arteries	146	491. The Venæ Cavæ	159
459. Another View of the same	146	492. The Vena Portarum	159
460. The Arcus Sublimis and Profundus	146	493. Deep Veins of the back of the Leg	159
461. The Aorta in its entire length	147	494. Relative positions of the Veins to the Arteries in the Arm	160
462. Arteries of the Stomach and Liver	147	495. Superficial Veins of the Thigh	160
463. Superior Mesenteric Artery	148	496. Saphena Vein	160
464. Inferior Mesenteric Artery	148	497. Superficial Veins of the Leg	160
465. Abdominal Aorta	149	498. Lymphatics of the Upper Extremity	161
466. Primitive Iliac and Femoral Arteries	149	499. The Lymphatics and Glands of the Axilla	161
467. Perineal Arteries of the Male	150	500. The Femoral and Aortic Lymphatics	161
468. Position of the Arteries in the Inguinal Canal	150	501. The Lymphatics of the Small Intestines	162
469. Internal Iliac Artery	151	502. The Thoracic Duct	162
470. Femoral Artery	151	503. The Lymphatics of the Groin	162
471. Gluteal and Ischiatic Arteries	151	504. Superficial Lymphatics of the Thigh	162
472. Branches of the Ischiatic Artery	151	505. Lymphatics of the Jejunum	163
473. Popliteal Artery	152	506. Deep Lymphatics of the Thigh	163
474. Anterior Tibial Artery	152	507. Superficial Lymphatics of the Leg	163
475. Posterior Tibial Artery	152	508. Deep Lymphatics of the Leg	163

PART V.

THE NERVOUS SYSTEM AND SENSES.

509. Dura Mater Cerebri and Spinalis	166	527. Another View of the Cerebellum	170
510. Anterior View of the Brain and Spinal Marrow	166	528. View of the Arbor Vitæ, &c.	170
511. Anterior View of the Spinal Marrow, &c.	166	529. Posterior View of the Medulla Oblongata	171
512. Lateral View of the Spinal Marrow, &c.	167	530. A Vertical Section of the Cerebellum	171
513. Posterior View of the Spinal Marrow, &c.	167	531. Another Section of the Cerebellum	171
514. Decussation of Mitischelli	167	532. Convolutions of the Cerebrum	171
515. Origins of the Spinal Nerves	167	533. The Cerebrum entire	172
516. Anterior View of the Spinal Marrow and Nerves	168	534. A Section of its Base	173
517. Posterior View of the Spinal Marrow and Nerves	168	535. The Corpus Callosum entire	173
518. Anterior Spinal Commissure	168	536. Diverging Fibres of the Cerebrum, &c.	174
519. Posterior Spinal Commissure	168	537. Vertical Section of the Head	175
520. Transverse Section of the Spinal Marrow	168	538. Section of the Corpus Callosum	175
521. Dura Mater and Sinuses	169	539. Longitudinal Section of the Brain	175
522. Sinuses laid open	169	540. View of a Dissection by Gall	175
523. Sinuses at the Base of the Cranium	169	541. The Commissures of the Brain	176
524. Pons Varolii, Cerebellum, &c.	169	542. Lateral Ventricles	176
525. Superior Face of the Cerebellum	170	543. Corpora Striata-Fornix, &c.	176
526. Inferior Face of the Cerebellum	170	544. Fifth Ventricle and Lyra	176
		545. Another View of the Lateral Ventricles	177
		546. Another View of the Ventricles	177
		547. Origins of the 4th and 5th pairs of Nerves	177

PART V. ILLUSTRATIONS.

Fig.	Page	Fig.	Page
548. The Circle of Willis	178	593. Another View of the Malleus	187
549. A Side View of the Nose	178	594. A Front View of the Stapes	187
550. The Nasal Cartilages	178	595. Magnified View of the Stapes	187
551. Bones and Cartilages of the Nose	178	596. Magnified View of the Incus	187
552. Oval Cartilages, &c.	178	597. Cellular Structure of the Malleus	187
553. Schneiderian Membrane	178	598. Magnified View of the Labyrinth	188
554. External Parietes of the Left Nostril	179	599. Natural Size of the Labyrinth	188
555. Arteries of the Nose	179	600. Labyrinth laid open, and magnified	188
556. Pituitary Membrane injected	179	601. Labyrinth, natural size	188
557. Posterior Nares	179	602. Labyrinth of a Fœtus	189
558. Front View of the Eye	180	603. Another View of the same	189
559. Side View of the Eye	180	604. Nerves of the Labyrinth	189
560. Posterior View of the Eyelids, &c.	180	605. A View of the Vestibule, &c.	190
561. Glandulæ Palpebrarum	180	606. Its Soft Parts, &c.	190
562. Lachrymal Canals	181	607. An Ampulla and Nerve	190
563. Muscles of the Eye Ball	181	608. Plan of the Cochlea	191
564. Side View of the Eye Ball	181	609. Lamina Spiralis, &c.	191
565. Longitudinal Section of the Eye Ball	181	610. The Auditory Nerve	191
566. Horizontal Section of the Eye Ball	182	611. Nerve on the Lamina Spiralis	192
567. Anterior View of a Transverse Section	183	612. Arrangement of the Cochlea	192
568. Posterior View of a Transverse Section	183	613. Veins of the Cochlea, highly magnified	192
569. Choroid Coat injected	183	614. A View of the Opening of the Eustachian	
570. Veins of the Choroid Coat	183	Tube in the Throat	193
571. The Iris	183	615. Origin of the Portio Mollis of the Seventh	
572. The Retina and Lens	183	Pair of Nerves	193
573. External View of the same	184	616. The Olfactory Nerves	193
574. Vessels in the Conjunctiva	184	617. The Optic and seven other Pairs of Nerves	194
575. Retina, injected and magnified	184	618. Third, Fourth, and Sixth Pairs of Nerves	194
576. Iris, highly magnified	184	619. Distribution of the Fifth Pair	194
577. Vitreous Humour and Lens	184	620. The Facial Nerve	195
578. Crystalline Adult Lens	184	621. The Hypo-Glossal Nerve	195
579. Lens of the Fœtus, magnified	184	622. A Plan of the Eighth Pair of Nerves	196
580. Side View of the Lens	184	623. The Distribution of the Eighth Pair	196
581. Membrana Pupillaris	185	624. The Great Sympathetic Nerve	197
582. Another View of the same	185	625. The Brachial Plexus	198
583. Posterior View of the same	185	626. Nerves of the Front of the Arm	198
584. A View of the Left Ear	186	627. Nerves of the Back of the Arm	198
585. Its Sebaceous Follicles	186	628. Lumbar and Ischiatic Nerves	199
586. Cartilages of the Ear	186	629. Posterior Branches to the Hip, &c.	199
587. The same with its Muscles	186	630. Anterior Crural Nerve	199
588. The Cranial Side of the Ear	186	631. Anterior Tibial Nerve	200
589. Meatus Auditorius Externus, &c.	186	632. Branches of the Popliteal Nerve	200
590. Labyrinth and Bones of the Ear	187	633. Posterior Tibial Nerve on the Leg	200
591. Full View of the Malleus	187	634. Posterior Tibial Nerve on the Foot	200
592. The Incus	187		

PART FIRST.

BONES:

NINETY-TWO FIGURES.

LIGAMENTS:

THIRTY-SIX FIGURES.
