

## INDEX.

- ABSCESS of inguinal glands, 31  
     " perineal, 370  
     " prostatic, 408
- BRAIN lesions of syphilis, 199  
 Balanitis, 353  
 Balano-posthitis, 353  
 Bubo, diagnosis and treatment of, 250
- Belfield on the parasitic origin of gonorrhœa, 275  
 Barker on the nature of gonorrhœa, 273  
 Bassereau on chancre and chancroid, 211  
 Beisiadecki on microscopical appearances of chancre, 29  
 Beale on the origin of syphilis, 19  
     " on the vitality of animal cells, 36  
     " on disease germs in gonorrhœa, 269
- Bumstead and Taylor on abortive method of treating gonorrhœa, 298  
     " " on the nature of gonorrhœa, 272  
     " " on gleet, 338  
     " " on contagiousness of late lesions, 170  
     " " on syphilitic dactylitis, 188
- Baumler on contagiousness of late lesions, 170
- Bladder, exploration of, 548  
     " " " last chapter  
 Bladder, recurring spasm of from contracted meatus, 522  
 Bulbous sound, 442  
 Bladder, examination of for diagnosis by exploratory operation, last chapter
- CHANCRE, physical characteristics of, 29  
     " location of, 35  
     " induration of, 32  
     " without induration, 89  
     " irritation of, 95  
     " secretion of, 21  
     " course and duration of, 24  
     " inoculability of, 27  
     " microscopical appearance of, 29  
     " treatment of, 66-70  
     " removal of by excision, 66, 27  
     " termination of, 24  
     " healing of, 21  
     " of meatus urinarius, 92  
     " of lip, 108  
     " complicated with herpes and phymosis, 101  
     " phagedenic form of, 97  
     " simulating epithelioma, 108
- Chancroid, its nature and treatment, 18, 207  
     " definition of, 18, 207  
     " character of, 31, 207, 217  
     " usual origin of, 208  
     " secretion of, 208  
     " history of, 209  
     " inoculability of, 208

- Chancroid, curability of, 209  
 " varieties of, 228, 208  
 " abrasion, origin of, 229  
 " mode of development of, 226  
 " physical appearances of, 229  
 " progress of, 231  
 " most frequent localities of, 229  
 " influences modifying, 235  
 " multiple character of, 231  
 " cases of, 232, 235  
 " not dependent on specific virus, 228  
 " reproduction of, 218  
 " modifications from implanting syphilitic elements on its site, 257  
 " excision of, 242  
 " cauterization of, 242  
 " non-specific nature of, 213  
 " differentiation of from chancre, 236  
 " diagnosis of, 225  
 " liability of mistaking for chancre, 215  
 " method of diagnosing from chancre, 215  
 " difficulties in diagnosis of, 240  
 " diagnosis and treatment of, 240  
 " of anus and rectum, diagnosis and treatment of, 255  
 " diagnosis and treatment of urethral, 254  
 " pustular variety of, 230  
 " inflammatory, 237  
 " indurated, 236  
 " exulcerous form, 256  
 " phagedenic, 238  
 " gangrenous, 237  
 " serpigenous, 238  
 " bubo of diagnosis and treatment of, 250  
 " diagnosis and treatment of bubonic, 250
- Chancroid, diagnosis and treatment of sub-preputial, 247  
 " diagnosis and treatment of indurated, 244  
 " diagnosis and treatment of papulo-pustular, 246  
 " diagnosis and treatment of ecthymatous, 247  
 " diagnosis and treatment of phagedenic, 244  
 " diagnosis and treatment serpigenous, 245
- Circumcision, 26  
 Caries of syphilis, 184  
 Contagiousness of non-specific pus, 22  
 Canula a chemise, 375  
 Cystitis, 413  
 " causes of, 413  
 " symptoms of, 414  
 " treatment of, 414  
 " case of, 414  
 " stricture as a cause of, 416
- Cornil on contagiousness of late lesions, 170  
 Cornil on syphiliticosteo-periostitis, 197  
 Confrontation, evidence by, 53
- DILATING URETHROTOME, 447, 469  
 Dactylitis syphilitica, 185  
 Dick on Gleet, 338  
 Diday on contagiousness of late lesions, 137  
 Dittel on follicular sinuses, 366
- EPIDIDYMITIS, 390  
 " manner of occurrence of, 390  
 " causes of, 393  
 " symptoms of, 390  
 " course of, 395  
 " treatment of, 396  
 " results of, 398
- External urethrotomy, description of, 371  
 " " management of, 372
- Encysted stone in the bladder, case of, 544  
 Exploratory perineal urethrotomy, 574

- FOLLICULITIS, 357  
 " cases of, 359  
 " treatment of, 357
- Follicular sinuses, 380  
 " " relation of to stricture, 380
- Fournier on self-limited power of syphilis, 170  
 " on contagiousness of semen, 179  
 " on mode of administering mercury, 177
- GONORRHOEA, 17, 261  
 " definition of, 17, 261  
 " nature of, 17  
 " habitat of, 17, 261  
 " specific origin of, 271  
 " non-specific, 263  
 " communication of, 262  
 " duration of, 284  
 " by mediate contagion, 291  
 " latent, 294  
 " induced by hithiasis, 288  
 " " " urethral stricture, 267  
 " identical with infantile leucorrhoea, 264  
 " bacillus of, 277, 300  
 " differential diagnosis of, 280  
 " complications of, 353  
 " abortive treatment of, 281  
 " futility of internal remedies in, 296  
 " method of treating in America, 302  
 " method of treating in Great Britain, 311  
 " systematic treatment of, 302  
 " expectant treatment of, 315  
 " treatment of by purgatives, 319  
 " author's experience in treatment of without specifics, 324  
 " author's method of treating, 300
- Gonorrhoea, method of administering injections in, 333  
 " dangers of injections in, 330  
 " treated by hot water retrojections, 306  
 " importance of from a medico-legal point of view, 265  
 " induced by injections, 266
- GLEET, 337  
 " definition of, 337  
 " nature of, 336  
 " causes of, 338  
 " degrees of, 348  
 " dependent upon stricture, 339
- Gumma of the testicle, 158  
 Gummy tumor of bone, loss of substance without caries, 183  
 " " " producing brain symptoms, 193  
 " " of integument and cellular tissue, 163
- Goodwillie on removal of necrosed bone, 190
- HEREDITARY syphilis, 204  
 Hunterian chancre, 210, 118  
 Henle on size of meatus urinarius, 346  
 Harrison on irrigation of the urethra, 357  
 Hill and Cooper on contagiousness of late lesions, 170  
 " " on abortive method of treating gonorrhoea, 297
- Hutchinson on syphilitic semen, 178  
 " contagiousness of late lesions, 131  
 " cerebral syphilis, 202
- Hemorrhage from urethra, method of arresting, 463
- INFECTIVE germinal material, proliferation of, 28

- Induration, significance of, 32  
 " without ulceration, 87  
 " the result of inflammatory action, 52  
 Iodide of potassium, means of administration, 164  
 Iritis, 110  
 " treatment of, 111
- LYMPHATIC obstruction, period of, 139  
 Lee on contagiousness of late lesions, 131  
 Lane on contagiousness of late lesions, 131  
 Lancereaux on contagiousness of late lesions, 137
- MEATUS urinarius, division of, 460  
 " " size of, 346, 422  
 Mucous membrane, inflammation of, 268  
 " patches simulating diphtheria, 76  
 Mercurial treatment, inability to bear, 99  
 Milton on treatment of gonorrhœa with copaiba, 317  
 " the nature of gonorrhœa, 272  
 Mercury, popular prejudice against, 125  
 Masturbation as a cause of urethral stricture, 426  
 Mireur on contagiousness of semen, 179  
 Mauriac on pericranial periostitis, 195
- PHYOSIS, 354  
 " treatment of, 355  
 Paraphymosis, 355  
 " treatment of, 355  
 Prostatitis, 403  
 " causes of, 403  
 " method of occurrence of, 402  
 " symptoms of, 403  
 " diagnosis of, 404  
 " termination of, 404  
 " treatment of, 406  
 " chronic treatment of, 410  
 Prostatic abscess, 408
- Prostate gland, anatomy of, 402  
 " examination of, 405  
 Perineal swelling, treatment of, 377  
 " " significance of, 368  
 " crutch, 466  
 " urethrotomy, 371  
 " " for exploration of bladder, last chapter  
 " section, how to control hemorrhage in, 375  
 " abscess, relation to stricture, 370  
 Psoriasis of tongue, significance of, 167  
 Penis, relation of size of to urethra, 367  
 " circumference of, 441  
 Proportionate relation of urethra to penis, 367  
 Pus, acquired irritant properties of, 220
- RECTUM, examination of, author's method, 405  
 Reflex neuralgia, 380  
 Reflex neuralgia, case of, 380  
 Reflex irritations, 487, 490, 491, 492, 498, 504, 511, 518  
 Reflex spasm of bladder, 541  
 Remedies and remedial agents referred to in this volume, and their application, 258, 260  
 Ricord on chancroid, 211  
 Rindfleisch on obstruction of lymph channels, 138  
 Ricord on inoculability of tertiary lesions, 137  
 Reflex irritations of the genito-urinary tract, 487  
 " " cause of, 521  
 " " treatment of, 523  
 " " cases illustrative of, 493 et seq.
- STRICTURE of urethra, 429  
 " " causes of, 418, 421, 429, 430  
 " " symptoms of, 430  
 " examination for, 342  
 " of urethra, diagnosis of, 431

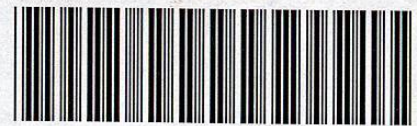

- STRICTURE, locality of, 443, 352  
 " results of dilatation of, 458  
 " cure of, by division, 348  
 " operations for, 446  
 Strictures of large calibre, definition of, 442  
 " of small calibre, 467  
 Spasmodic stricture, 470, 526  
 " " symptoms of, 538  
 " " cases illustrative of, 470 et seq.  
 " " Bumstead's views, 528  
 " " Stilling's views, 529  
 " " Erichsen's views, 527  
 " " views of Sir Hy. Thompson, 526  
 " " Dittel's views, 528
- Sounds, bulbous and solid, illustration of, 443  
 " mode of introduction, 444  
 Syphilis, origin of, 20  
 " history of, 19  
 " definition of, 18  
 " nature of material of, 81  
 " introduction of system into, 20  
 " period of incubation of, 51  
 " second incubation of, 34  
 " invasion of, 33  
 " irritation, period of, 56  
 " initial lesion of, 18  
 " contagion of, 56  
 " inoculability of, 18  
 " gland enlargement in, 58  
 " contagium of, 18  
 " acquirement of, 21  
 " course of infective principle of, 28  
 " inoculation of, through mediate contagion, 36  
 " communication by direct contact, 35  
 " modes of transference of, 34  
 " infection, proof of, 23
- Syphilis, views of its origin, nature and composition, 18  
 " progress of infection of, 56  
 " clinical evidence of, 46  
 " early manifestations of, 71  
 " active stage of, 44  
 " roseola of, 73  
 " contagiousness of secretions in, 101
