PREFACE

TO

THE THIRD EDITION.

THE First Edition of this Manual was published in 1868, and the Second in 1872, during my residence in Calcutta. Since my return to Europe I have revised the work, and hope the Third Edition will be found to sustain the character of those that have gone before it.

C. MACNAMARA.

13, GROSVENOR STREET, W.

January, 1876.

CONTENTS.

CHAPTER I.
