# PIERON'S CODE CONDENSER

50 0/0 Economy without changing codes.

---

This Condenser can be adapted to all telegraphic codes that are numbered. It enables one to realize an economy of 50% on all cables. The use of it is most simple and it offers, besides, a **check system** permitting the user to rectify errors of transmission.

We cannot recommend this Condenser too highly to merchants who have to correspond with distant countries.—Examples.

The four following words taken out of the A B C Code 5th edition: *Certifichi*, *Umbrao*, *Silabear*, *Drilboren*, can be cabled in two words, as follows, by the Piéron's Code Condenser, *Carudlotef*, *Lafidsifig*.

On the receipt of these two words the receiver possessing Piéron's Code Condenser will read in his A B C Code the four sentences corresponding to the words *Certifichi*, *Umbrao*, *Silabear*, *Drilboren* and this without changing anything in his code.

The four following words taken from Lieber's Code *Aeravisseem*, *Aercorum*, *Bastonerai*, *Dekenwever* can be translated: *Bilerbilig*, *Gupalrazei*.

The two following words: *Aeravisseem*, *Umbrao*, the first of which is taken from Lieber's Code and the second from the A B C Code can be transmitted without any confusion possible by the single word *Bileroltef*.

In conclusion, Piéron's Code Condenser enables one to transmit in one word two words extracted from a cyphered code or even from two different codes.

Price \$7.50 per copy.

Copies will be sent for examination on request.

## Cables

When in doubt about what Code to use in telegraphing to a new correspondent take note that

### A B C CODE 5th EDITION IMPROVED

is used by more

Exporters	Importers
Banks	Brokers
Individuals	Manufacturers
Shippers	Merchants

than any other code because of its

Circulation Economy Simplicity

PRINTED IN TWO LANGUAGES

*ENGLISH*

*SPANISH*

*Price \$15.00 net*

For sale at all large bookstores or

**AMERICAN CODE COMPANY (Inc.)**

83 FULTON ST. : : : : N. Y. C.

## Mutilations

Have you received any code-words you could not translate?

Could you dig any of them out?

How long did it take? One hour, two hours?

Did you have them repeated?

How long did it take? 24 hours, 36 hours, 48 hours?

Can you afford this delay when you can avoid it by using the Terminal Index to the codewords of this code which will correct your mutilated codewords in two minutes.

*Price \$2.50 net*

If you can't believe this ask us for one on memorandum and find out for yourself. There is no obligation to purchase.
