## CONTENTS.

INTRODUCTION . . . . .	Page 9
CHAPTER I.	
Signification and derivation of term . . . . .	19
Ideas of Scrofula formerly entertained . . . . .	21
CHAPTER II.	
My own ideas of the nature of Scrofula . . . . .	30
CHAPTER III.	
The scrofulous deposit—its physical characters . . . . .	40
Its chemical characters . . . . .	43
CHAPTER IV.	
State of the organ in which the product is about to be deposited . . . . .	45
CHAPTER V.	
Source from whence scrofulous matter is derived . . . . .	49
CHAPTER VI.	
Are Pulmonary Tubercle or Phthisis and Scrofula, in their nature identical? . . . . .	59
Differences cognizable by the unaided senses . . . . .	61
„ Detected by the microscope . . . . .	62
„ „ by chemical analysis . . . . .	64
„ In the condition of the part, in which the deposit is made . . . . .	65
„ As to vascularity of the product . . . . .	66
„ As to the period when Scrofula and Phthisis destroy life . . . . .	68
„ As to the sex of the victims of Phthisis and Scrofula . . . . .	70
„ In relative frequency of the two diseases . . . . .	ib.
„ Deduced from comparative pathology . . . . .	74

## CHAPTER VII.

Prevalence of Scrofula in Great Britain . . . . .	Page 77
"    "    Among Hospital and Dispensary Patients . . . . .	79
"    "    "    Recruits . . . . .	80
"    "    "    Convicts . . . . .	81
"    "    Registered Evidence of . . . . .	82
"    "    Unequal . . . . .	82
"    "    In other countries . . . . .	84

## CHAPTER VIII.

Is the occurrence of Scrofula more frequent than formerly? . . . . .	89
--	----

## CHAPTER IX.

Causes of Scrofula . . . . .	95
"    "    Hereditary . . . . .	96
"    "    "    Predisposition . . . . .	113
"    "    Particular diseases other than Scrofula in the pa- rents . . . . .	117
"    "    Syphilitic taint in the parent . . . . .	118
"    "    Conception during menstruation . . . . .	125
"    "    Age of parents . . . . .	125
"    "    Intermarriages . . . . .	127
"    "    Milk of a scrofulous nurse . . . . .	128
"    "    Contagion. . . . .	132
"    "    Inoculation with pus arising from some other diseases . . . . .	136
"    "    Food . . . . .	145
"    "    "    of Paupers . . . . .	155
"    "    "    of Peasantry . . . . .	155
"    "    "    of Prisons . . . . .	158
"    "    "    of Irish peasantry . . . . .	162
"    "    "    of Asylums abroad . . . . .	165
"    "    "    Particular kinds of . . . . .	167
"    "    Atmospheric influences . . . . .	168
"    "    Climate . . . . .	187
"    "    Light . . . . .	190
"    "    Humidity . . . . .	191
"    "    Temperature . . . . .	194
"    "    Occupation in Factories . . . . .	203
"    "    Prisons . . . . .	213
"    "    Summary of . . . . .	214

## CHAPTER X.

Treatment of Scrofula—preventive management . . . . .	Page 219
"    "    Curative treatment . . . . .	229
"    "    Superstitious practices—the Touch . . . . .	230
"    "    Curative agents . . . . .	243
"    "    Mercury . . . . .	245
"    "    Iodine . . . . .	250
"    "    Barium . . . . .	253
"    "    Hydro-chlorate of Lime . . . . .	254
"    "    Alkalies . . . . .	256
"    "    Burnt Sponge . . . . .	257
"    "    Cod-liver Oil . . . . .	259
"    "    Sea-water . . . . .	261
"    "    Mineral Waters . . . . .	264
"    "    Season . . . . .	270
"    "    Appropriate treatment . . . . .	ib.

## CHAPTER XI.

Conclusion . . . . .	275
----------------------	-----

## APPENDIX.

Albers' Letter with reference to Phthisis and Scrofula . . . . .	281
"    Beobachtungen für Pathologie, Extract from . . . . .	283
Prevalence of Scrofula in Great Britain, evidence of . . . . .	285
"    "    In other countries, evidence of . . . . .	289
Diet Rolls of different Establishments . . . . .	316
Dry and damp Districts, influence of . . . . .	325
Sea-side and Inland Towns . . . . .	ib.
Climate, Influence of, evidence . . . . .	326
Factory and Non-Factory Towns . . . . .	328
Factory Towns, Horner and Saunders . . . . .	ib.
Factories situated in Rural Districts . . . . .	329
Influence of Prisons, Dr. Baly's evidence . . . . .	333
Ceremony used in the practice of the Touch . . . . .	345

## EXPLANATION OF PLATE.

- FIG. 1. Is taken from a drawing of a Scrofulous Gland, made by Mr. Dalrymple. The magnifying power used was about 650 linear.
- A. The confines of the healthy tissue pervaded by exudation corpuscles.
  - B. Exudation corpuscles and amorphous scrofulous matter.
  - C. Opaque cheesy deposit in the centre of the gland, composed of disintegrated exudation corpuscles, granular matter, and oil globules.
  - D. Oil globules.
- FIG. 2. Is taken from a drawing made by Mr. Gulliver of Tuberculous and Scrofulous matter; the magnifying power 680 linear.
- A. Tuberculous matter taken from the lung.
  - B. Scrofulous matter taken from a subcutaneous lymphatic gland.
- FIG. 3. This figure, taken from Lebert, and probably magnified about 600, represents "isolated" tubercular matter.
- FIG. 4. Is taken from the same Author; it represents Tuberculous matter rendered transparent by means of Acetic Acid.
- FIG. 5. Is also taken from Lebert; it represents Pulmonary Tubercles between the Pulmonary fibres.
- FIG. 6. This figure is taken from Vogel; the magnifying power is about 220. It represents Tuberculous Matter taken from a mesenteric gland.
- FIG. 7. Is also from Vogel; the magnifying power the same. It represents Tuberculous matter taken from the kidneys.
- FIG. 8. Is from Vogel. It represents a Lymphatic Gland "infarcted" with Scrofulous matter; magnifying power probably about 200.
