MEXICO.

The steamers of the New York and Cuba Mail Steamship Co. (Ward Line) leave New York for Nassau, Santiago, and Cienfuegos every other Thursday; for Havana and Mexican ports every Wednesday and Saturday.

NASSAU

is reached in 70 hours. It is the sanitarium of the Western Hemisphere, with an equable winter climate of 70° to 78°, and a variation of not over 5° in 24 hours. Malaria, rheumatism, kidney, and lung troubles speedily benefited and often cured. The Royal Victoria Hotel is most comfortable and well kept by an American. The physicians of Nassau are well known for their ability.

HAVANA

is the Paris of the Tropics. The Cuban winter is genial and the nights cool. The most delicate invalid who can travel at all will find Cuba restful and beneficial in that season of the year.

MEXICO

offers with the least discomfort a variety of climate that should please tourist or invalid. There is much to interest and learn within the borders of our sister republic.

The steamers are new, full-powered steamships, that offer all the luxury and safety of modern sea-going travel.

For full information, beautifully-illustrated pamphlets, maps, climatic tables, etc. (all sent free on application), apply to
