Cardinal Wiseman's Essays on Various Subjects.

Messrs. MURPHY & CO. have the pleasure of announcing, that they have entered into such arrangements with Mr. Dolman, the London Publisher, as enable them to supply the American Market with Cardinal Wiseman's Essays, at Four Dollars less than the London publisher's price for the same edition. They hope that the liberal spirit thus manifested on the part of the London publisher, will be duly appreciated by the American public, and that it will answer the desired end—to render unnecessary the republication of the work in this country.

The learned Dr. BROWNSON says: "We are glad to see these admirable Essays of his Eminence Cardinal Wiseman, the greater part of which were originally published in *The Dublin Review*, collected and given to the public in these three handsomely printed volumes. They constitute one of the richest contributions that have recently been made to our English Catholic literature. They bear to us the marks of a varied and extensive erudition, which we seldom look for out of Italy or Germany; are written in a style of singular freshness and beauty, vivacity and force, ease and dignity, which may well be studied as a model.

"These Essays are divided into three classes. The first, which fills the first volume, consists of Scriptural Essays, and papers designed to bring out the beauties of the Catholic ritual, of Catholic practices, and of Catholic devotions. The second class, making up the second volume, with the exception of the last article, is entirely devoted to the High-Church question, or, as it used to be called, the Oxford Controversy. The third class is made up of essays of a more miscellaneous character,—historical, aristical, archaeological, and controversial; but all are subjects of great interest and importance to every Catholic. It is difficult to speak of these Essays in language which to those who have not carefully read them, will not seem to be exaggerated. They are marked by great clearness of apprehension and expression, depth and originality of thought, a rich imagination, a cultivated taste, and a tender devotional spirit. They are in style and manner genuinely English, admirably adapted to the tastes and peculiarities of the English mind, but rigidly orthodox and even ascetic in their soul. We have in them great artistic beauty, high appreciation of the æsthetic, and a strong disposition to press into the service of religion sensibility, taste, and imagination, but we have nothing weak, morbid, or fanciful, and all is strong, healthy, and robust, under the regimen of good sense and enlightened devotion. We are pleased, delighted, charmed, as we read them, and at the same time enlightened, elevated, and invigorated."
