EPILOGUE

Each term paper, article, thesis, or dissertation is a statement by the writer. For younger individuals, such statements may be offered in hopes of professional advancement, financial gain, or personal aggrandizement.

For this student, at more than three score and eight years, none of these apply. This work has been undertaken partly out of a long-term curiosity, in part to be an example to my children, and in part to be able to make a statement closing certain doors as others are opened.

I might have made this statement years ago, but though it seemed close to fruition for a time, battles remained to be fought, and rough and rugged roads remained to be traveled. However, let it be realized that although I did not turn away from the battles, avoid the obligations, nor shirk at the roads to be traveled, the hope of being able to make this final statement in this type of work was never lost.

Perhaps only those who have also traveled the killing fields of mankind's inhumanity to mankind and the earth can understand this kind of reasoning behind so many years of study in so many places to reach this milestone.

Now, at long long last, the milestone is reached and it can be said.
I look to work for that day when all humanity will join me in saying,...
as I have tried to express with academic training, studies, research, and this writing...
...as I have wanted to be able to say—this way—during so many battles and for so many years:

The Sword has now become my plowshare
and The Spear—my pruning hook.
I work toward that day when all will stand together as equals in estimation, trust, and love,
to understand, forgive, conserve, and build for each other and the earth,
when nation shall no more rise up against nation,
When the lion shall lie down with the lamb,
and all humanity shall join me in saying,
as now I can say,... after so long a time,

I study war no more!

The roads ahead are ones on which to learn, to work, and to contribute,...
to spend the remaining days of my life in the fields of flowers, education, and research,...
laboring in these fields to preserve and proliferate
on behalf of generations to come.

...and for myself
to at least stand in spirit with Johannes Kepler and work as he did
—hopefully—

only to know,... to humbly comprehend
just a little

of The Mind of God.

EPÍLOGO

Cada reporte escolar, artículo, tesis o disertación constituyen una declaración por parte de quien lo escribe. Para individuos más jóvenes, tales declaraciones pueden ser ofrecidas con deseos de superación profesional, beneficio económico o por agradecimiento personal. Para este estudiante a más de sesenta y ocho años, ninguno de estos ejemplos es aplicable. Este trabajo se ha emprendido en parte por una curiosidad de muchos años, en parte para ser un ejemplo para mis hijos y en parte para ser capaz de hacer una declaración cerrando ciertas puertas al mismo tiempo que otras se abren.

Yo pude haber hecho esta declaración hace años, pero, aun cuando en algún tiempo su fruición parecía bastante cerca, aun permanecían batallas por defender y escabrosos caminos por transitar.

Sin embargo, que quede entendido que a pesar de que yo no hui de las batallas, tampoco evité las obligaciones, ni acorte los caminos por viajar, la esperanza de ser capaz de hacer esta declaración final en este tipo de trabajo nunca fué perdida.

Quizá sólo aquellos quienes también han presenciado los escenarios de las masacres de la inhumanidad del género humano contra la humanidad y el planeta tierra puedan entender esta clase de razonamiento detrás de tantos años de estudio en tantos lugares para alcanzar este hito.

Ahora, después de tanto tanto tiempo, el hito se ha alcanzado y se puede decir.

Yo busco trabajar por ese día cuando la toda la humanidad se una conmigo para decir... tal como lo he tratado de expresar con entrenamiento académico, estudios, investigaciones y éste escrito... tal como he deseado ser capaz de decir—de esta forma—durante muchas batallas y por muchos años:

La Espada ahora se ha convertido en mi arado
y La Lanza en mi cuchilla de podar.

Yo trabajo para el día cuando todos juntos se pongan de pie como iguales en estimación, confianza y amor, para entender, perdonar, conservar y construir para el prójimo y para la tierra, cuando las naciones no se alcen contra otras naciones, cuando el león descansa junto al cordero,... y toda la humanidad se una conmigo al decir, como lo puedo decir ahora,... después de tanto tiempo,

¡No estudiare la guerra nunca mas!

Los caminos verdaderos son aquellos para aprender, trabajar y contribuir,... para emplear el resto de mis días de vida en los campos de flores, educación e investigación,... laborando en esos campos para preservar y proliferar en favor de las generaciones venideras.

...y por mí mismo
para al menos permanecer en espíritu con Johannes Kepler y trabajar como él lo hizo
—esperanzadoramente—

solo para conocer,... para comprender humildemente
solo un poco

de La Mente de Dios.
